

Differentiating Anxiety, Obsessive-Compulsive, and Trauma- and Stressor-Related Disorders

Note: Panic attacks that are cued by any anxiety or related disorder would be a specifier of the disorder (as opposed to a hallmark feature in panic disorder).

Note: Only the disorders included in this manual are listed. Each DSM-5 chapter includes additional conditions. For a complete list, refer to the DSM-5. American Psychiatric Association. Diagnostic and Statistical Manual of Mental Disorders (DSM-5). 5th ed. Arlington, VA: American Psychiatric Association; 2013.
